

Hi! It's so nice to meet you. My name is **EAMON.**

Eleven-year-old Eamon loves Roundup River Ranch. He has attended Summer Camp at Roundup River Ranch for the past three years and Family Camp for the past two. **A heart transplant recipient, Eamon lives in a constant state of worry that something could happen to him tomorrow. When he's at camp, Eamon can let loose and he doesn't worry as much.** Eamon thinks camp is a place where you have fun all week and you can take a break from being with your parents.

At Roundup River Ranch, Eamon learned that he is good at archery. He loves all of the activities and his favorite thing about camp is the Candle Chats during which he and his new friends get to know each other on a different level than his friends from school. **With his friends at camp, Eamon can express his feelings about the hard things in life.**

While Eamon has a few more years of camp to look forward to, he knows that he wants to return to Roundup River Ranch as a counselor one day.
